That, Threatened Irish Home Rule Bill Are Thought Past.

Perfect Tranquility Marked the Passing Upon the First Reading.

Fixed Determination of Liberals to See the Bill Through.

ORANGE THREATS ARE IGNORED

All Liberals and home rulers will separate for a brief vacation in high spirits, cables T. P. O'Connor, the Irish leader in the British Parliament. This temper is in sharp contrast with that of a few weeks ago. The Marconi revelations when first announced seemed destined to bring about the crashing fall of at least two Ministers and possibly the downfall of the whole Ministry. The woman's suffrage bill presented many perils, including an open division of opinion among the Liberal Ministers themselves. Long and excited debates caused a derangement of the whole programme for the ses-sion and a possible peril to home rule and other great Ministerial measures. Similarly on the conmeasures. Similarly on the con-tinent the black specter of war seemed to be finally descending upon horrified but impotent Europe. Simultaneously the prospect of a big deficit in the budget portended the necessity of new taxation, and with new taxation, added to all the other burdens of the Ministry, might well have proved the final straw to break the camel's back. Every one of these perils now has disappeared.

Once more the Irish party proved the decisive factor in deciding a great British struggle, as without the Irish vote the woman's bill would have been carried by a ma-jority of one, instead of being de-feated by the majority of fortyseven. Militancy shows some signs of fiercer vitality since the rejection of the bill, but these are only flickerings of the dying flames against Home Secretary McKenna's vigorous now be expected, and then woman's movement again may gin to recover lost ground. But no suffrage bill now is possible in the present Parliament. Lloyd-George's daring and resource enabled him to produce a budget without new taxation, the Chancellor trusting to the unexampled expansion of British trade to mke up the deficit during the coming year. Finally the war clouds have disappeared from the

Divisions among the Tory leaders on the tariff show an enormous reponderance of talent in the Ministry over its chief opponents. The disappearance of Balfour, the great and continued prosperity of country, success with such daring measures as old age pensions and the insurance act, as well as unbroken good luck, have contributed to obtain this result. One main cause, however, is the fixed termination of all Liberals to see home rule through. This determination is a bond of steel which keep all sections of the coalition inflex ibly and irresistibly together, which enables them to laugh at difficulties and ignore scandalous campaigns, and also to reject every entanglement, such as woman's suffrage, which might stand in the path of

This is the key to the whole situation, and this supreme factor now is expected with perfect hope to keep the Government in power and all th progressive forces together until the Irish Parliament is re-established and placed on an impregnable rock. Ulster, which has been silent for months, is beginning to ge restive over being so ignored, and an active campagn was started lately once more to frighten English opinion by announcements of secret drillings and many other prepara-

tions for civil war. Sir Edward Carson will spend the present vacation in an attempt to blow the ashes of Orange passion ment may be allowed to go on some time longer, but when the Government strikes it will strike as hard if necessary as it did with the suffra-gettes. England is not to be cowed out of doing the right thing by such threats. The perfect tranquility of the English mind in the face of Orange threats found final expression in passing upon the first read-ing of the home rule bill this week under a parliamentary rule which all speeches and all

Designating Thomas Moore as one of the greatest bards of the last century, Judge Matt O'Doherty at the Louisville Free Public Library on Monday night delivered a stirring address on the great poet and the conditions in Ireland which were responsible for some of the poems he wrote. The address was preceded by a reading from Tennyson's works with explanations by Dr. H. A. Cottell, President of the Louisville Literary Club. Judge O'Doherty de-clared the accusation that the poet wrote for the aristocracy and the rawing-room was without foundaand was far superior to England intellectually. "Ireland's intellect has subdued England in the great duel which has been waged before the bar of public opinion. The right of the Irish people to liberty has been recognized by the greatest English statesmen and the democratic people of England are now trying to reciprecate for what aid has been given by Ireland, without which few if any franchises would have been secured for England," the speaker declared. luding Judge O'Doherty said Moore has been a religious poet as well as a prophet and had risen to his greatest height when writing his sough of defiance and prophecy.

At the close of a revival by Billy Sunday last week at South Bend, Ind., an attempt was made by some of the Menace fanatics to flood the town with copies of the filthy Menace, but was nipped in the bud by the city authorities, who threatened to arrest the distributors if they persisted in their attempt to start a religious war in that heretofore peaceful little city. Here is the latest from Brann's Iconclast, expressing his opinion rocked minister Walker and his

dirty little sheet: "As I write, there lies before me a great pile of Walker's paper reeking with slime, slander and talsehood. DANGERS

Women That Lurk Behind the So-Called Suffrage Movement.

Mrs. Dodge Says the Race Will Degenerate if Movement Continues.

She Asserts That Morality Is Affected by Woman's Dress.

LIBERTY TURNED INTO LICENSE

In a striking statement made public at the national headquarters of the Association Opposed to Woman Suffrage in Washington last Sunday Mrs. Arthur M. Dodge, of New York, President of that association, used a new line of attack on the equal suffragists. She says: "In view of what is happening in various parts of the country, it is high time for every thinking man and woman to realize that back of the woman suffrage disturbance is the question of sex-or rather a distortion of the sex question," Starting from this point Mrs. Dodge develops her idea, and says that if the movement is not checked "it will degenerate

"The only sure manner of estimating the real meaning or strength of the so-called suffrage movement," she continued, "is to see clearly the moves and underlying reasons back The suffrage disturbance is in plain words a sex disturbance. Many women who are suffragettes do not realize this, but it is a fact nevertheless just as the tendency of some other women to take up fool-ish fancies and unnecessary movements is the result of that uneasiness and straining after artificial happiness and unnatural enjoyment which indicates an unsettled and an unsatisfactory state of mind. We who oppose woman suffrage are convinced that woman suffragettes support their cause because they view the whole situation from an unnatural angle. One morning in New York I heard a young woman discoursing with great eloquence on how she and her sisters could improve the morals and manners of

a fashionable dance. gowned in an extremely decollete fashion, and the way she danced and bore herself was suggestive, to say the least. I do not believe this girl ever realized that while her vote would be powerless in an election, the cut of her gown, the manner of representation was in the case of outing and will introduce a number her dancing and the words of her councilman D. B. Coleman, pro- of races and outdoor sports of all conversation could be made a prietor of the Broadway Hotel, at Ninth and Broadway, the Post stating that he conducted a saloon, and had a summer entertainment of this and thus throughout the whole community. She was misled, as many other women are, by the mirage that good morals and good manners can be legislated into men and women. Morals and manners are the fruits of women's minds, not the voting booth. And just so long as women clamor for political 'rights' and yet dress in garments that are the defnition of bad taste all the votes in the world will not change the trend of sentiment in society and throughout the whole population of country.

are in the midst of a markable period of our history. There is more immodesty in dress, more looseness in conversation and more impropriety in dancing than has ever been known to the American people, either in so-called high society or among those who are in other conditions. Back of these revelations of the lowering of women's ideals and conduct there is the same reason as that which actuates the suffrage disturbance. There was a time not so long ago when young girls demanded more freedom and liberty, an escape from the close scrutiny of the home and watchful eye of the chaperon. They obtained this liberty, and suddenly we are now confronted with the realization of how terribly easy it may be for this liberty to be turned into license. By the same line of argument woman has sought a freedom unpar-alleled in the history of the world, Having secured freedom and equality in the arts, in the industries and in commerce, she seeks what she calls a political liberty which would be perflously close to license. It is motherhood. The moment they outfor which they were created become shirkers and drones. ever necessary, but misdirected sex is a national tragedy, which if it is not checked will degenerate the
